

## TO REALIZE THE CONSUMPTION OF YOUR PC

AppliConso is thus in line with an "eco-programming" approach, in order to allow everyone to evaluate the electrical consumption of his machine and the applications installed there by software free of rights.

## NATURE OF THE PROJECT

Appli Conso is the conclusion of a tutored project within the IUT of Blagnac

## PARTNERS

- IUT of Blagnac
- Toulouse Institute of Computer Science (IRIT)
